STATOTHR

I have looked over your letter of 4 August and the resume attached and find your qualifications of considerable interest. At the moment this cannot mean very much, as I am, like most everyone else, being faced with budget and economy problems. Consequently, I can hold out no hope at the present time in my Office.

I am forwarding your file to a couple of other offices in the Agency where your experience would, I know, be of interest. It is possible that they may wish to talk with you, and I would appreciate it if you would drop me a note stating whether you would accept interesting work not legal or at best quasi-legal in nature, but which would make good use of your training and experience.

Very truly yours,

Lawrence R. Houston
General Counsel
